

Volume 1, Issue 1 October, 1998

A WORD FROM OFM

The Office of Financial Management welcomes this first edition of the DELPHI Newsletter. This publication is meant to convey to the user community the status of the DELPHI program and provide a forecast of future events.

DELPHI PROGRAM STATUS

What's Been Happening??

August 10-28 Oracle Key User Training

DELPHI Team key users from all OA's attended Oracle "boot camp" training in Washington DC.

August 31 - September 4 Solution Demonstration Lab 1 User Review

We appreciated the efforts of the DELPHI team key users who were present at the first Solutions Demonstration Lab (SDL 1) user review and are pleased with its success. The goal of getting the issues on the table was accomplished. We look forward to working with key users to resolve the issues during the SDL2 process.

September 16 - 17 SDL 1 Road show

All OA's were asked to invite their employees and customers to the road show for the first SDL in the Nassif Building in Washington DC. The road show presented a high-level overview of the DELPHI Program and the SDL process. The road show presentation has been placed on the DELPHI web site.

What's Happening Next??

October - November

Refine scripts for SDL 2

Define roles and responsibilities

Begin SDL 2

OA's begin developing program plan for implementation

OFM and OA's attend Oracle Applications User Group conference October 25-29

DELPHI Website is now at:

Everybody's Asking...

Question: What does "DELPHI" represent?

Answer: "DELPHI" is *not* an acronym. Instead, it represents a financial state to which we would like to *evolve*. Two goals of the DELPHI Program are to allow the software to drive re-engineering of the internal financial business processes in DOT and to provide more accurate and accessible financial reporting.
